

Svenska Psykiatriska Föreningen

The Swedish Psychiatric Association's Main Objectives

**"Good mental health and
reduce suffering from mental illness"**

Svenska Psykiatriska Föreningen

- **An Integrated Psychiatry**

- » *One objective is to create a common platform with others in the field of psychiatry and thereby have a greater consensus and impact pertaining to joint issues*

- **Constant Development of Psychiatric Care**

- » *Favorable climate research with effective clinical implementation of old and new knowledge and the best business organization with obvious continuous development*

Svenska Psykiatriska Föreningen

- **High Quality of Psychiatric Care**

- » *Psychiatry will use modern methods to provide diagnoses, treatment and rehabilitation*

Efforts should always be created and evaluated in agreement with the patient

Svenska Psykiatriska Föreningen

- **Satisfactory Access to Psychiatric Care**

- » *We want to create a safeness for the population through increased accessibility and continuity of psychiatric care*

- **Improving Knowledge of Population on Mental Illness and Psychiatric Care**

- » *We strive to make our professional skills available in teaching and public debate*
